

CHANGE YOUR COLORS, CHANGE YOUR THINKING, CHANGE YOUR LIFE!

"Do small things with great love."
—Mother Teresa

Each moment is yours to create, and that is what the CHANGE YOUR COLORS, CHANGE YOUR THINKING, CHANGE YOUR LIFE Workshop is all about. A charming and whimsical afternoon on the thoughts and ideas that enhance our lives, the workshop takes the magical form of a personal gift book – just in time for Valentine's Day.

In discovering the *Treasure Trove of your inner child* under the fun, wise and knowledgeable direction of the Duchess of Doodle™, artist/writer Karen Jean Leventhal, you will learn to shine your own inner light through words and pictures.

Sprinkle your creation with your own wonderful, inspirational thoughts on love, living, grace, and spirit, as well as timeless quotes passed down through the ages. You will be guided to design an enlightened book that can be an *Artful Remembrance* for you, your family, and your friends.

To plant the seeds for a great 2010, bring a shoebox or bag filled with:
